

# The International Congress – Emory University Cognition Satellite Meeting\*

March 27 (PM) and March 28, 2009

The Manchester Hyatt Hotel ♦ San Diego, CA

## *Program Schedule*

### Friday March 27

5:00-7:00 pm Poster Session and Reception.

### Saturday March 28

8:25 am Welcome *Philip D. Harvey, Emory University School of Medicine*

## Latest Developments in the Cognitive Neuroscience of Schizophrenia

*Deanna Barch, Chair*

8:30 am: Introduction

### Episodic Memory

8:35 Title: Neural Architecture of Episodic Memory Processes

Speaker: *Charan Ranganath, University of California at Davis*

9:15 Title: Schizophrenia's Impact on Basic Prefrontal Mechanisms of Episodic Encoding and Retrieval

Speaker: *Dan Ragland, University of California at Davis*

9:40 Title: Prefrontal/Hippocampal Interactions in the Control of Episodic Memory in Schizophrenia

Speaker: *Deanna Barch, Washington University*

### Attentional Control

10:10 Title: Neural Mechanisms of Attentional Control

Speaker: *John Serences, University of California at San Diego*

10:50 Title: Control of Attention in Schizophrenia

Speaker: *Jim Gold, Maryland Psychiatric Research Center*

11:15 Title: Attentional Control Deficits in Schizophrenia: Implications for Glutamate, Dopamine, and Neuromigration Theories

Speaker: *Angus MacDonald, University of Minnesota*

### Translational Issues

11:40 Title: Value Added: Getting Over the Incremental Validity Hurdle

Speaker: *Dwight Dickinson, VA Capitol Health Care Network, Baltimore, Maryland*

12:05 Title: Bringing Cognitive Neuroscience Tasks to Multi-site Trials: Challenges and Proposed Solutions

Speaker: *Richard Keefe, Duke University*

1.00 pm Boxed Lunch

# The International Congress – Emory University Cognition Satellite Meeting\*

Saturday March 28 (continued)

## Lifetime Course of Schizophrenia: From Elementary School to the Elder Years

*Philip D. Harvey, Chair*

- 2:00 Title: Premorbid Intellectual Functioning in Schizophrenia  
Speaker: *Larry Seidman, Harvard Medical School*
- 2:30 Title: Early life Characteristics of individuals Destined to Develop Schizophrenia  
Speaker: *Michael Davidson, University of Tel Aviv*
- 3:00 Title: Cognitive and Functional Changes During the Prodrome  
Speaker: *Barbara Cornblatt, Zucker Hillside Hospital*
- 3:30 Title: Cognitive and Brain Changes in the Early Course of Schizophrenia  
Speaker: *Rene Kahn, University of Utrecht*
- 4:00 Title: Reductions in Cognitive Plasticity with Aging in Schizophrenia  
Speaker: *Eric Granholm, University of California San Diego*
- 4:30 Title: The Course of Cognitive and Functional Deficits in Older Patients with Schizophrenia  
Speaker: *Philip Harvey, Emory University School of Medicine*

\* (formerly known as the Mt. Sinai Conference on Cognition)
